

QUARTERLY ACTIVITIES REPORT MARCH 2015

Discovery Africa Limited (ASX: DAF) ("the Company"), is an Australian based mineral exploration company that is focused on the exploration and development of the Nachingwea Graphite Project in Tanzania.

Exploration Activities

Nachingwea Graphite Project

The Nachingwea Graphite Project is located in southeast Tanzania and comprises five granted tenements covering approximately 520km². The region has access to high quality infrastructure including access via mainly sealed roads from the coastal towns of Lindi and Mtwara, which also boast an airport and deepwater port facilities (see Figure 1).

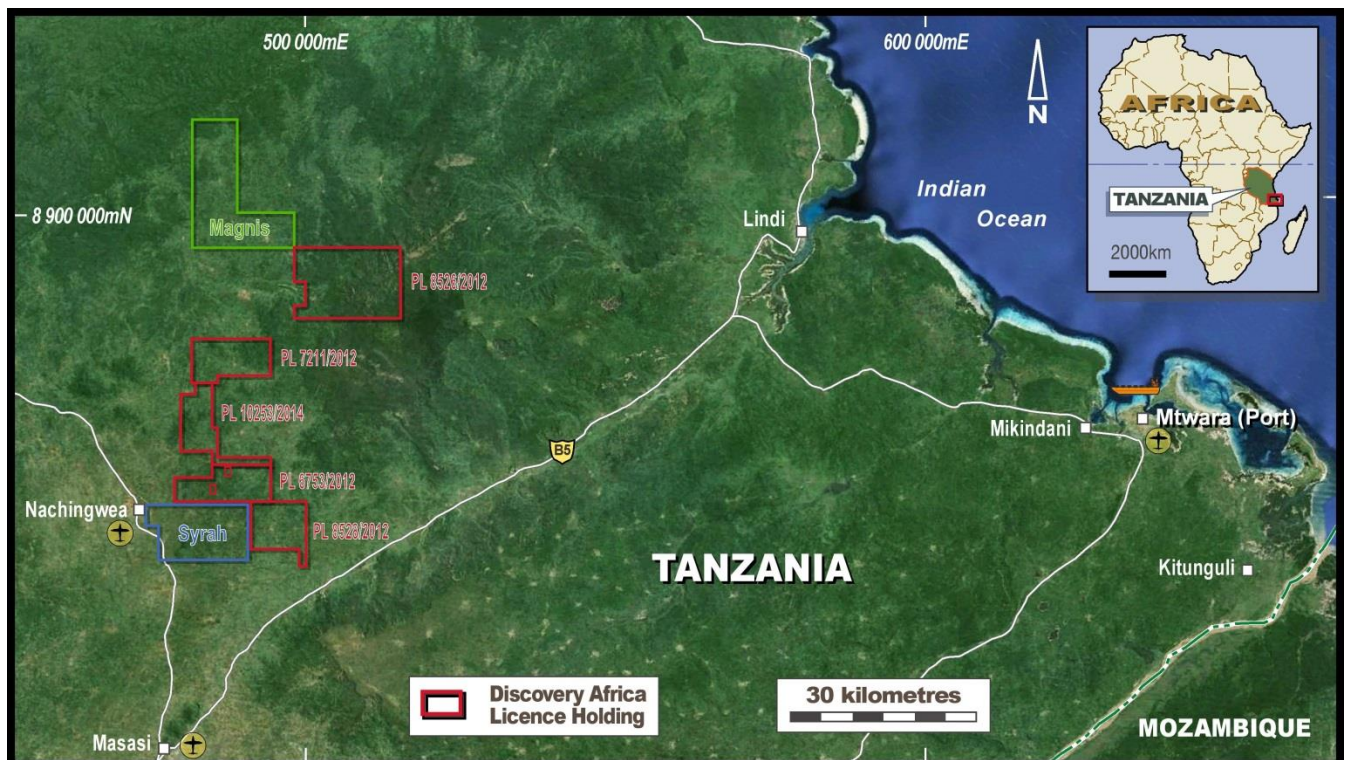

Figure 1. Location Map showing Nachingwea townsite, Mtwara port facility and DAF granted Prospecting Licences in relation to Magnis (green) and Syrah (blue).

The Company has a dominant tenement position at Nachingwea located between and adjacent graphite projects held by Syrah, Magnis and IMX Resources, which will allow a

DISCOVERY africa

consolidated approach to exploration of the entire project area and cements DAF's position as an emerging graphite explorer in Tanzania;

The Project substantially overlays the graphite prospective Mozambique Mobile Belt, with graphitic schist located both within and surrounding the Project. The prospect areas within the project tenements are highly prospective for graphite mineralisation, including outcrops of graphitic schist identified at numerous localities. At the Injaa Hill prospect area, outcrops of graphitic schist have been mapped by the Geological Survey of Tanzania.

Other Projects

The Kitgum Graphite Project, located in northern Uganda, now comprises Exploration Licence 1173 (EL1173). The Company is continuing due diligence enquiries to review legal and technical data on EL1173 to determine the Company's status of the exploration licence.

The Company is continuing to investigate the decisions and actions of its former directors in entering into an MOU and HOA, and the significant expenditure of Company funds on the Brandberg Lithium Project in Namibia.

Corporate

The Company lodged its Half-Yearly Report to shareholders on 16 March 2015.

Other Matters

The Company previously announced that it had commenced Federal Court Proceedings seeking final relief against Kevin Nicol and Danie van den Bergh, two of the previous directors of Discovery Africa Limited, in the form of damages and equitable compensation for breaches of Common Law and Statutory duties owed to the Company.

The Company has recently added additional parties to the Federal Court Proceedings.

Key Objectives for June 2015 Quarter

- The Company will consider its strategy at the Nachingwea Graphite Project to ensure it enhances and increases the overall value proposition of the Company;
- The Company will continue to review its strategic options over the remaining projects; and
- The Company will consider new project opportunities to enhance the Discovery Africa project portfolio.
