QUARTERLY ACTIVITIES REPORT JUNE 2017

Discovery Africa Limited (ASX: DAF) ("the Company"), is an Australian based mineral exploration company with an interest in three projects - the Cue and Pinyalling Gold Projects in Western Australia (via an option to purchase a 100% interest in both projects) and the Nachingwea Graphite Project in Tanzania (100% interest).

The Company provides the following update for the Quarter;

Exploration Activities

Nachingwea Graphite Project

The Nachingwea Graphite Project is located in southeast Tanzania. The region has access to high quality infrastructure including access via mainly sealed roads from the coastal towns of Lindi and Mtwara, which also boast an airport and deepwater port facilities.

Discovery Africa currently retains PL10253/2014. No activity occurred in the Quarter ended 30 June 2017, and in July, the Company made the decision to relinquish its interest in the Project.

Gold Projects (Western Australia)

In April 2017, DAF executed a Heads of Agreement (HOA) with Bruce Robert Legendre, granting the Company a one-year option period to purchase a 100% interest in the Cue and Pinyalling Gold Projects in Western Australia.

The Cue Project comprises two contiguous tenements – Prospecting Licence 20/2088 (196 hectares) and Prospecting Licence 20/2089 (39 hectares), located immediately to the north of the Cue township. Cue is located 650km north of Perth on the Great Northern Highway. The Cue Project area is readily accessible by vehicle via numerous roads and tracks.

The Pinyalling Project consists of Exploration Licence 59/2112 covering 18 blocks (54km²) and is about 400km northeast of Perth. Access is via the Great Northern Highway from Perth to Paynes Find-Yalgoo Road. This road gives access to the Pinyalling Mining Centre, about 30km west of Paynes Find.

Further details on the acquisition of these Projects are contained in the Company's announcement dated 7 April 2017.

The Company is currently conducting a desk-top review of the historical data on the Projects and is working to develop an initial exploration plan to conduct field works at the Projects.
